TARIFF FORMAT SHEET

1. Page Numbering. Page numbers appear in the upper-right corner of the page. Pages are numbered sequentially. New pages may occasionally be added to the tariff. When a new page is added, the page appears as a decimal. For example, a new page added between pages 34 and 35 would be 34.1.
2. Page Revisions Numbers. Page Revision Numbers also appear in the upper-right corner of the page. These numbers are used to determine the most current page revision on file with the Arizona Corporation Commission. For example, the fourth revised Page 34 cancels the third revised Page 34. Because of deferrals, notice periods, etc., the most current page number on file with the Commission is not always the tariff page in effect. Business Customers should consult with check sheet for the page currently in effect.
3. Paragraph Numbering Sequence. There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level of coding.
 - 1.
 - 1.1
 - 1.1.1
 - 1.1.1.A.
 - 1.1.1.A.1.
 - 1.1.1.A.1.(a)
 - 1.1.1.A.1.(a)(I)
 - 1.1.1.A.1.(a)(I)(i)
 - 1.1.1.A.1.(a)(I)(i)(1)
4. Check List of Effective Pages. When a tariff filing is made with the Commission, an updated Check List of Effective Pages ("Check List") accompanies the tariff filing. The Check List lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check List is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on the Check List if these are the only changes made to it (i.e., the format, etc.). Business Customers should refer to the latest Check List to find out if a particular page is the most current page on file with the Commission.
5. Symbols Used in This Tariff.
 - (C) To signify changed listing, rule, or condition which may affect rates or charges.
 - (D) To signify discontinued material, including listing, rate, rule or condition.
 - (I) To signify an increase.
 - (L) To signify material relocated from or to another part of tariff schedule with no change in text, rate, rule or condition.
 - (N) To signify new material including listing, rate, rule or condition.
 - (R) To signify reduction.

- 2.4.7. Teligent is not liable for any damages, including toll usage charges, the Business Customer may incur as a result of the unauthorized use of its telephone facilities. This unauthorized use of the Business Customer's facilities includes, but is not limited to, the placement of calls from the Business Customer's premises, and the placement of calls through Business Customer-provided equipment that are transmitted or carried on the Teligent network. Teligent may work with Business Customers to recommend possible solutions to reduce unauthorized use of their facilities. However, Teligent does not warrant or guarantee that its recommendations will prevent all unauthorized use, and the Business Customer is responsible for controlling access to, and use of, its own telephone facilities.
- 2.4.8. Where there is a connection via Business Customer-provided terminal equipment or Business Customer-provided communications systems, the point of demarcation shall be defined as the Teligent facility that provides interconnection. Teligent shall not be held liable for Business Customer-provided access media or equipment. Any maintenance service or equipment arrangements shall be addressed on an individual case basis.
- 2.4.9. In no event will Teligent be liable for protection of Business Customer's transmission facilities or equipment from unauthorized access, or for any unauthorized access to or alteration, theft or destruction of Business Customer's data files, programs, procedure or information through accident, fraudulent means or devices or any other method.
- 2.4.10. Teligent will not be responsible if any changes in its service cause hardware or software not provided by Teligent to become obsolete, require modification or alteration, or otherwise affect the performance of such hardware or software.

2.5. Responsibilities of the Business Customer

- 2.5.1. The Business Customer is responsible for taking all necessary legal steps for interconnecting the Business Customer-provided terminal equipment or communications systems with Teligent's facilities or services. The Business Customer shall secure all licenses, permits, rights-of-way and other arrangements necessary for such interconnection. The Business Customer may not, nor may the Business Customer permit others to, rearrange, disconnect, remove, attempt to repair, or otherwise interfere with any of the facilities or equipment installed by Teligent, except upon the written consent of Teligent. The equipment Teligent provides or installs at the Business Customer premises for use in connection with the service that Teligent offers shall not be used for any purpose other than for which it was provided.

- 25.2. The Business Customer shall ensure that the equipment and/or system is properly interfaced with Teligent's facilities or services; that the signals emitted into Teligent's network are of the proper mode, bandwidth, power, signal level or other technical parameters for the intended use of the Business Customer and in compliance with the criteria set forth in this Tariff, and that the signals do not damage equipment, injure personnel or degrade service to other Business Customers. If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, Teligent will permit such equipment to be connected with its channels without the use of protective interface devices.
- 25.3. If the Business Customer fails to maintain the equipment and/or system properly, with resulting imminent harm to Teligent's personnel or the quality of service to other Business Customers, Teligent may, upon written notice, require the use of protective equipment at the Business Customer's expense. If this fails to produce satisfactory quality and safety, Teligent may, upon written notice, terminate the Business Customer's service.
- 25.4. The Business Customer shall be responsible for securing its telephone equipment against being used to place fraudulent calls using Teligent's service. The Business Customer shall be responsible for payment of all applicable charges for services provided by Teligent and charged to the Business Customer's accounts, even where those calls are originated by fraudulent means either from Business Customer's premises or from remote locations. In addition, the Business Customer shall be responsible for all calls charged by fraudulent means to the Business Customer's prepaid calling card.
- 25.5. Teligent shall be indemnified and held harmless by the Business Customer against claims of libel, slander, or the infringement of copyright, or for the unauthorized use of any trademark, trade name, or service mark, arising from the material transmitted over Teligent's service, against claims for infringement of patents arising from, combining with, or using in connection with, service, Teligent's apparatus and systems of the Business Customer; against all other claims arising out of any act or omission of the member in connection with Teligent's service. The Business Customer shall be liable for:
- 25.5.A. Loss due to theft, fire, flood, or other destruction of Teligent's equipment or facilities on Business Customer's premises.
- 25.5.B. Reimbursing Teligent for damages to facilities or equipment caused by the negligence or willful acts of the Business Customer's officers, employees, agents or contractors.

2.8. Payment of Charges.

2.8.1. Teligent shall present invoices for recurring charges monthly to the Business Customer, in advance of the month in which service is provided, and recurring charges shall be due and payable as specified on the bill. Two methods of providing Business Customers with billing detail and invoices are available. A Business Customer must elect one of the billing methods at the time they sign up for service. Teligent offers the following types of billing methods:

2.8.1.A Electronic Billing – Teligent offers its Business Customers the option to obtain their bills electronically, via the Internet. The electronic bill will contain all required call detail information as required by Commission rules.

1. Business Customers will receive, via electronic mail (Email), a remittance page that will summarize the total charges due, and serve as a reminder that the current month's detailed bill is available for viewing.
2. A Business Customer electing electronic billing will not receive a paper bill. At any time, the Business Customer may call Teligent's Customer Service Department at 1-888-4 1 1- 1175 to request a paper copy of their bill.
3. Business Customer's wishing to discontinue taking electronic billing shall notify Teligent and Teligent will, without penalty, provide paper billing as set forth below.

2.8.1.B Paper Billing Business Customer's electing not to receive electronic billing will receive a detailed paper copy of their bill, via United States Postal Service.

2.8.2. When billing is based on customer usage, charges will be billed monthly for the usage in preceding billing periods. When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days. The Customer will be billed for all accrued usage beginning immediately upon access to the service. The rates charged to a Customer for usage charges will be the rates in effect on the first day of the Customer's billing cycle.

Business Customer Interexchange Services Tariff

2.8.3. Bills are due and payable as specified on the bill, the due date will not be less than twenty-one (21) days after the date of the postmark on the bill. The Customer's first bill may be issued up to ninety (90) days after the date of installation.

2.8.4. Bills may be paid by mail or in person at the business office of Teligent or an agency authorized to receive such payment. All charges for service are payable only in United States funds. Payment may be made by cash, check, money order, cashier's check, or electronic funds transfer. Customer payments are considered prompt when received by Teligent or its agent by the due date on the bill. If the Customer remits to Teligent on more than one occasion during a twelve (12) month period a check, draft, or other instrument that is dishonored, Teligent may refuse acceptance of future checks and place the Customer on a "cash basis," pursuant to which Teligent has the right to refuse acceptance of anything as payment other than United States currency, United States Postal Service money orders, or cashier's check.

2.8.5. If Teligent does not receive any portion of the payment, or if Teligent receives any portion of the payment in funds that are not immediately available, by the due date, then a late payment penalty shall be due to Teligent. The late payment penalty shall be the portion of the payment not received by the date due, multiplied by the one and one half percent (1.5%) late charge. Unpaid amounts are subject to a late fee every subsequent due date to the extent the amount remains unpaid.

2.8.6. Teligent may assess up to twenty dollars (\$20.00) or five percent of the amount of the check, which ever is greater, for each check returned for insufficient funds.

2.8.7. Any disputed charge may be brought to Teligent's attention by verbal or written notification. In the case of a billing dispute between the Customer and Teligent that cannot be settled to their mutual satisfaction, the undisputed portion and subsequent bills must be paid on a timely basis, or the service may be subject to disconnection. The Customer may request an in depth investigation into the disputed amount and a review by a Teligent manager. During the period that the disputed amount is under investigation, but in no event to exceed 60 days, Teligent shall not pursue any collection procedures or assess late fees with regard to the disputed amount. The Customer shall be required to pay the undisputed part of the bill, and if not paid, Teligent may discontinue service. In the event the dispute is not resolved, Teligent shall inform the customer that the customer has the option to pursue the matter with the Commission. If there is still a disagreement after investigation and review by Teligent supervisory personnel, the Customer has the option to pursue the matter with the Commission. A complaint may be submitted either verbally or in writing to the following:

In calculating refunds, usage discounts will be adjusted based on total usage after all credits or adjustments have been applied. 2.8.9. Teligent will charge a processing fee to a Customer who requests a copy of a bill that has already been issued to the Customer, unless the Customer informs Teligent within thirty (30) days of the issuance of the bill that the original bill was not received. If a Customer or the Customer's representative thereafter requests additional copies of bills the following fees will be charged:

Bills dated within 90 days prior to receipt of the request	\$5 per bill, plus \$0.25 for each telephone number reflected on bill over five numbers

Teligent will not provide a copy of a bill that is over four (4) years old.

Business Customer Interexchange Services Tariff

- 2.8.10 If billing for Teligent's services are found to differ from Teligent's tariffed rates, or if Teligent fails to bill the customer for such services, Teligent will calculate a billing adjustment. If an underbilling is for \$25 or more, Teligent will offer the customer an installment payment arrangement option for the same length of time as that of the underbilling. If the customer is due a refund, an adjustment shall be made for the entire period of the overcharges. If Teligent adjusts an overcharge within three billing cycles of the bill in error, interest is not applicable. However, if Teligent does not adjust an overcharge within three billing cycles of the bill in error, interest, to be compounded annually, shall be applied to the amount of the overcharge in accordance with State and Utility Regulatory Commission rules.
- 2.8.11 Any applicant or one for whom an application is made, owning Teligent for service furnished under a former contract, shall pay or make satisfactory arrangements for paying any bill outstanding and unpaid for such service, before any additional service will be furnished. In accordance with State and Public Utility Commission rules, Teligent will provide proof of past indebtedness, which includes copies of billing records and related documentation, verification of tariffed rates used and documentation of all other elements of any bill required to be paid as a condition of service restoration.

3.1.3 Features

3.1.3.A. Accounting Codes - Accounting Codes will be offered as a feature of outbound long distance service. Accounting codes will be available in a validated and unvalidated configuration. Accounting codes are cost tracking codes that are dialed after a Customer has dialed a long distance telephone number. The code appears on the call detail of the invoice, allowing the Customer to track costs by account code. The Customer may designate a specific account code for each employee, for a Commission, for an external Customer, etc. The account code may be validated or unvalidated. Customers with validated account codes activate a specific number of account codes. When the Customer dials the call, he/she is prompted to enter the account code. If the account code is not among the codes activated for the Customer, the call will not process. Unvalidated account codes allow Customers to activate all account codes within a given range. When a Customer dials a call using unvalidated account codes, they are – again – prompted to dial a code. The Customer must then dial a code within the range allocated to the Customer. If the Customer has selected 4-digit account codes, then any 4 digits between 1001 and 9999 will be accepted. Account codes are 2-8 digits.

3.1.3.B. Directory Assistance - Teligent Outbound Service Customers can access long distance operator services like interstate directory assistance (1+NPA+555+1212).

SECTION 5 – PROMOTIONAL OFFERINGS AND DISCOUNTS5.1 Overview

From time-to-time, Teligent will provide promotional offerings to its Customers. Such offerings will be limited to certain dates, times and locations. The specified terms and conditions of each promotional offering will be described herein. Discounts may be combined unless otherwise noted.

5.2 Non-Regulated Promotions Involving Tariffed Services

From time to time, Teligent may conduct contests or other promotions such as described in this Section which offers Customers of certain Teligent tariffed services certain unregulated, non-tariffed or non-communications related goods or services in connections with the particular contest or promotion. Under no circumstances will such an offering constitute a change in the rates charged to, or received from, the Customer of the Teligent tariffed service offering involved. Such services will continue to be provided to the end-user pursuant to applicable tariffed rates for such service specified herein. Should any offering of this nature involve a temporary change in the rate charged for a tariffed offering, e.g., a monetary rebate, a cash prize, a credit on a subsequent month's bill or any other type of direct monetary consideration tied to usage of the Teligent tariffed offering, Teligent will separately tariff such promotion in accordance with Commission rules.
